#### 《Peter Pan》 - James M. Barrie

That, Peter had told Wendy, was the way to the Neverland; but even birds, carrying maps and consulting them at windy corners, could not have sighted it with these instructions. Peter, you see, just said anything that came into his head.

At first his companions trusted him implicitly, and so great were the delights of flying that they wasted time circling round church spires or any other tall objects on the way that took their fancy.
